SUMMARY

Computer Science student at Cairo University (Expected 2028) with strong skills in C#, C++, Object-Oriented Programming, Data Structures, and Database Design & Implementation. Learning .NET Backend Development and Advanced SQL to build clean, data-driven applications. Experienced in student activity leadership, team management, and event organization.

EDUCATION

Cairo University - Faculty of Computers & Artificial Intelligence

Expected 2028

B.Sc. in Computer Science

TECHNICAL SKILLS

Languages:	C#, C++, SQL, Python, HTML, CSS, JavaScript, C
Core Concepts:	Object-Oriented Programming (OOP), Data Structures, Algorithms, Relational Database Design & Implementation
Frameworks & Web:	ASP.NET Core (Currently Learning), Advanced SQL / DB Topics (Currently Learning), Django
Tools:	Visual Studio, SQL Server Management Studio (SSMS), Git, GitHub

PROJECTS

Smart Delivery Center

Solo Project

- Built a C# console app to simulate order and delivery management.
- Used OOP concepts and data structures to handle the system logic.

Image Processing Filters

Individual Project

- Created custom image filters in C++ from scratch using 2D matrices without external libraries.

Online Library Platform

Team Project

- Built several frontend pages using HTML, CSS, and JavaScript.
- Worked with the backend team to connect pages with Django.

LEADERSHIP & STUDENT ACTIVITIES

Student Activity Head / President

- Progressed from PR Member to PR Head, and ultimately led the entire student activity as Overall Head.
- Managed a team of 40+ members across PR, Marketing, HR, and Operations.
- Interviewed and selected new members to build effective teams.
- Partnered with external organizations like DataCamp to bring free courses and opportunities to students.
- Encouraged students from non-tech backgrounds to join and learn programming.
- Organized 2 main off-campus events and student training workshops.

LANGUAGES

- **Arabic:** Native
- **English:** Intermediate / Professional Working Proficiency
